RE: Permit Renewal Package and Inspection Update

On behalf of the Rappahannock Regional Solid Waste Management Board (R-Board) we want to remind all of our valued customers that permit renewals are due for fiscal year 2020. This is pursuant to County Code §21-2 & §21-4. Companies disposing of waste at the R-Board facility must have a permit. Renewal applications must be renewed before June 30, 2019.

There are a few updates to this year's permit renewal:

- Permit Fees submitted before July 1 will not be processed until after July 1
- We are offering Self-Inspections – it is recommend that the inspections are conducted by an experienced mechanic
- Inspections by R-Board Staff will still be available
- Our Fee Schedule and Rules and Regulations will no longer be mailed out, these documents will be available online at www.r-board.org/regional-landfill/commercial-permits/

Neglecting to renew your permits and perform fleet inspections may disrupt the R-Board ability to provide you service.

Please contact Douglas Webster at 540-658-4579 or DWebster@staffordcountyva.gov for inspections of your fleet. Questions regarding the application can be directed to Susan Carpenter at 540-658-7119 or SCarpenter@staffordcountyva.gov.

CC: Rick Markwardt, Superintendent
